

<p>English</p> <p>Spring 1</p> <p>Following on from our Greek Myths last term, we will focus on Norse Myths to link with our history topic. In our writing, we will develop our knowledge of noun phrases, relative clauses and commas to clarify meaning.</p> <p>Spring 2</p> <p>To link with science, we will study a book about Canadian astronaut Chris Hadfield. In our writing we will understand how to use verb forms correctly and use brackets, dashes or commas to indicate parenthesis.</p>	<p>Science</p> <p>Spring 1</p> <p>We will learn about Earth and its place in Space. To begin with, we will consider the order and relative sizes of the planets. Then we will learn about the orbit of the Earth and understand how day and night are created.</p> <p>Spring 2</p> <p>After half term, we will investigate forces including air and water resistance and friction. We will also find out about the work of Isaac Newton and plan our own investigation.</p>	<p>Maths</p> <p>Spring 1</p> <p>We will briefly re-visit topics from last term, particularly short multiplication and short division. Then we will move onto area and scaling. Recall of times tables facts continues to be a main focus.</p> <p>Spring 2</p> <p>After our work understanding decimals last term, we will move onto calculating with decimals. We will also identify factors, multiples and prime numbers. Times tables continue to be crucial!</p>
<p>Computing</p> <p>Children will learn how to search a provided database. They will sort data in different ways and create their own database linked to our science work.</p>	<p>Music</p> <p>Mr Bennett will be taking the class for music after half term where the children will continue to learn the clarinet</p>	<p>Class 5</p> <p>Spring Term</p> <p>Overview</p>
<p>Geography</p> <p>In Geography this term, Year 5 will be exploring why our oceans matter. The children will learn how oceans support life, how humans use them for food, travel and energy, and the impact our actions can have. We will also discuss ways we can protect and care for our oceans.</p>	<p>Art</p> <p>In Art, we will explore printing. We will look at a range of artist and printing styles. We will develop our own silkscreen print at the end of the unit.</p> <p>Design Technology</p> <p>Children will develop their design and sewing skills to create a bag.</p>	<p>History</p> <p>In history we will learn about the Anglo-Saxons and Vikings and find out when and why they came to Britain and decided to settle here. We will explore different types of historical evidence and consider what it tells us. We will explore what the Anglo-Saxons believed and consider the conversion to Christianity.</p>
