Well done to the following children who will all be receiving a virtual book token this week.

Reception	Ryan Pearce	Year 1	Elsie Stinton
Year 2	Martin Yordanov	Year 3	Isaac Griffin
Year 4	Amelia Coombes	Year 5	Airon Smith
Year 6	Freya Stewardson		

Next week, we shall be contacting all of you once more to touch base: the schedule begins on Wednesday 3rd and shall continue until Friday the 12th.

Incidentally, we have all been so impressed with the quality of the children's work over the last few weeks and your excellent support: you all are really doing a first class job! In many ways, I feel that there is a stronger relationship between all members of the school community as a result of recent events and I am full of admiration for the role that you have played in working with us to help your children with their schooling.

Nevertheless, I am aware that there will be days that not everything goes to plan (I assure you that we have days like that in the classroom too!) so remember that little and often is a good approach to learning; quality of work is preferable to quantity and some days the children and yourselves just need a break.

This week one class is experimenting with Microsoft Teams and next week hopefully the rest of the school shall as well. There will be an educational objective to each session but the underlying purpose is to provide an opportunity for the children to see and talk to some of their classmates and their teacher.

We have included a home/school agreement (user protocol) for parents to read and adhere to during the sessions. Of course, although some children may need some help handling the technology, the session will be for them to participate in, so I would ask you to encourage as much independence as possible.
