Sports Premium Overview

The Sports premium funding must be used to fund improvements to the provision of PE and sport, for the benefit of primary-aged pupils so that they develop healthy lifestyles.

Playing sport helps to keep people healthy and is good for communities. Playing sport at school or in a local club is also the first step to competition at the highest level, which helps improve our reputation as a sporting nation, and contributes to economic growth.

But when people leave school they often stop playing sports, which means people can't fulfil their sporting potential, and can lead to a less healthy lifestyle. We want to get more people playing sport safely from a young age, and help them keep playing sport throughout their life, no matter what their economic or social background.

Maintained schools and academies must publish, on their website, information about their use of the PE and Sport Grant allocation.

Schools should publish the amount of grant received; how it has been spent (or will be spent) and what impact the school has seen on pupils' PE and sport participation and attainment as a result, to help to ensure that all pupils develop healthy lifestyles.

Funding for 2018/2019

Funding Type	Number	Rate	Total
Lump sum awarded	1	£16,000	£16,000
Funding per eligible pupil awarded	173	£10	£1,730
	174		£17,730

The CPD sessions are providing St. Laurence's staff with the ability to up-skill without the pressure of failure. They enjoy the time to watch, participate and gradually build up their knowledge to deliver a session on a sport or skill that maybe out of their comfort zone. Staff have the ability to assess as they progress, ensuring that the development of every child is being met. They have also started to see that PE is more than just a physical activity and exercise but that it is a cross curricular subject and has impact across the whole school learning process.

Report writing is now based on each child's ability and development instead of just subject areas covered. Staff are now understanding whether pupils are hitting their developmental milestones and learning how differing teaching styles and methods can engage all pupils in a lesson.

Session Plans , schemes of work and risk assessments are being collated as they move through the process and this is building a bank of resources for all staff to feed into and use effectively over the years to come. The programme will continue to role into the next academic year with teachers choosing different areas and skills to try and gradually over the next few years feel up-skilled and confident in a range of PE.

The impact of the PE coordinator undertaking the level 5 primary PE school specialism and PE subject leadership course has had a huge impact on the school. Well structured policies and planning are now in place as well as framework and structure which will continue to show impact in years to come. The highlighted need for assessment of learning and the delivery of an outstanding provision has seen changed to the curriculum map to include all curriculum areas and outcomes to the fullest extent.

St Laurence' s seen first hand that knowledgeable and happy staff results in classes of children who are keen to learn and develop and the sustainability of this is in the pupils themselves. Staff at St. Laurence's want to be a part of their pupil's journey that ensures that they are ready to take on secondary school wit t all the knowledge and skills to lead a healthy lifestyle.

Expenditure

Services provided by TMS. formally (Severn Sports).	£7,210
Sports Package with High School	£1,000
Swimming Tuition	£6,245
Transport to sporting events	£2,957
