Safe and responsible social media use

We have noted recently an incident where parents/carers have used social media or private Facebook or chat groups to:

Complain about individual members of staff and make inappropriate comments about members of staff, other parents or pupils.

Our Parental code of conduct set clear expectations for pupils and parents about online conduct.

We expect parents to abide by these guidelines so that you can help us model safe, responsible and appropriate social media use for our pupils.

This includes voicing opinions about the school in a way that disrespects the hard work, dedication and professionalism of our staff; this is especially disappointing as over the last few months, the staff have shown exceptional dedication and commitment towards the education of children of St Laurence's, sometimes at personal risk to themselves.

I know that the overwhelming majority (practically all of you) have been extremely supportive and appreciative of our efforts during this very difficult time.

Complaints and concerns

There may be times where, as a parent, you don't agree with something the school is doing, or where you may have specific concerns. We welcome your feedback, and the opportunity to address any concerns you may have.

The most appropriate way to raise concerns is directly with the school, in line with our complaints procedure. Airing complaints or negative opinions on social media doesn't help the school to address the issue in the most constructive way.
